SUMMARY

Full Stack Web Developer with a background in clinical management and teaching. A life-long student who is always looking for the next project to work on. Familiar working in a team environment and independent enough to handle personally assigned projects. Currently looking for an opportunity to apply Full Stack Bootcamp experience to a Full Stack Development role.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript

Technologies: jQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, React.js, Git, Firebase

PROJECTS

What's Cooking? | <https://github.com/jsills3110/Project-1> | <http://www.jessicasills.com/Project-1/>

- A recipe searching app that allows the user to search, save, and edit recipes they find on a recipe API.
- A team collaboration with three other developers. Contributions included: Routing the flow of data from the API calls to the user and working on the "deck" functionality.
- Technologies/Languages used: HTML, CSS, JavaScript, jQuery, Bootstrap, and Firebase.

Cheap Cheep | <https://github.com/rayhe921/Cheap-Cheep> | limitless-depths-91026.herokuapp.com/

- A React based app that allows the user to create multiple personal shopping list across multiple sites.
- A team-based project with three other developers. Contributions included: Development of components, Code architecture, and State management.
- Tools / languages used: MySQL, handlebars.js, CSS, JavaScript, jQuery, Materialize. Moment API, Sequelize, and Stripe API.
